

CIHAD ÖZDEMİR

Personal Profile

My name is Cihad Özdemir, a 24-year-old Computer Science graduate from Københavns Erhvervsakademi. I am a dedicated and responsible individual with a strong passion for technology and problem-solving. I thrive in collaborative environments and enjoy contributing to innovative solutions. With a structured and proactive approach, I am always eager to learn and adapt to new challenges.

Experience

Internship (Motorola Solutions, August 2024 - November 2024)

- **Jenkins Pipeline Development:** Further developed Jenkins pipelines by implementing agent monitoring and automating pipeline tests via external configuration files, thereby increasing efficiency and reducing errors.

Wolt Courier Partner (September 2023 - Present)

- **Customer Service Excellence:** Strengthened interpersonal and customer service skills through regular interaction with customers during food and beverage deliveries.

Temporary Employment Agency (Pareta, January 2022 - March 2022)

- **Adaptability:** Demonstrated adaptability and versatility by taking on substitute roles in both educational and healthcare settings.

Patient Safety Agency, Copenhagen (October 2022 - December 2022)

- **Crisis Management:** Gained experience in crisis management and ensured compliance with health and safety protocols.

Randstad, (June 2021 - November 2021)

- **Communication Skills:** Developed strong communication skills to effectively convey safety protocols to individuals.

Education

Datatiker, Københavns Erhvervsakademi (August 2022 – January 2024) Grade Point Average: 8.6

4th Semester Electives:

- Python
- IT Operations
- Machine Learning

2-Year HF Program, Copenhagen Private Gymnasium, Denmark (2017–2019)

- Final Grade Point Average: 8 (based on the Danish 12-point scale)

Hobbies

- **Social Activities:** I enjoy spending time with my fiancée, friends, and new people, whether at cafés, social events, or outdoor activities.
- **Technology:** I stay up to date with the latest technology and participate in communities, conferences, and courses to develop my skills and expand my network.
- **Football:** I love playing football as it combines exercise, strategy, and teamwork, giving me energy both physically and socially.
